CONSOLIDATED HIGHLIGHTS

Membership: Medical enrollment totaled approximately 40.8 million members at March 31, 2019, an increase of 1.2 million, or 2.9 percent, from March 31, 2018. Government Business enrollment increased by 877 thousand, predominantly driven by growth in Medicaid and Medicare. Commercial & Specialty Business enrollment increased by 279 thousand, driven by growth in all lines of business. Total fully insured enrollment grew by 943 thousand, or 6.5 percent, and fee-based membership grew by 213 thousand, or 0.8 percent.

Medical enrollment increased by 905 thousand sequentially during the first quarter of 2019, primarily driven by growth in fully insured membership across the businesses. Government Business enrollment grew by 511 thousand sequentially, driven by increases in Medicaid and Medicare. Commercial & Specialty Business enrollment increased by 394 thousand, attributable to increases in National and Individual.

Operating Revenue: Operating revenue was \$24.4 billion in the first quarter of 2019, an increase of \$2.0 billion, or 9.2 percent, versus \$22.3 billion in the prior year quarter. The increase in operating revenue reflected membership growth across our businesses and premium rate increases to cover overall cost trends. The increase was partially offset by the one year waiver of the health insurance tax in 2019.

Benefit Expense Ratio: The benefit expense ratio was 84.4 percent in the first quarter of 2019, an increase of 290 basis points from 81.5 percent in the prior year quarter. The increase, as expected, was primarily driven by the one year waiver of the health insurance tax in 2019. The ratio also increased due to the non-recurrence of retroactive revenue adjustments in the Medicaid business that were received in 2018.

Medical claims reserves established at December 31, 2018 developed moderately better than the Company's expectation during the first quarter of 2019.

Medical Cost Trend: For the full year 2019, the Company continues to expect underlying Local Group medical cost trend will be in the range of 6.0% +/- 50 basis points.

Days in Claims Payable: Days in Claims Payable was 38.5 days as of March 31, 2019, an increase of 2.3 days from 36.2 days as of December 31, 2018.

SG&A Expense Ratio: The SG&A expense ratio was 13.0 percent in the first quarter of 2019, a decrease of 230 basis points from 15.3 percent in the first quarter of 2018. The decrease, as expected, was primarily driven by the one year waiver of the health insurance tax in 2019, growth in operating revenue, and overall expense management.

Operating Cash Flow: Operating cash flow was \$1.6 billion, or 1.1 times net income in the first quarter of 2019. For the first quarter of 2018, operating cash flow was \$2.2 billion, or 1.7 times net income. The decrease was driven primarily by the timing of Medicare prepayments in 2018.

Share Repurchase Program: During the first quarter of 2019, the Company repurchased 1.1 million shares of its common stock for \$294 million, or a weighted average price of \$275.23. As of March 31, 2019, the Company had approximately \$5.2 billion of Board-approved share repurchase authorization remaining.

Cash Dividend: During the first quarter of 2019, the Company paid a quarterly dividend of \$0.80 per share, representing a distribution of cash totaling \$206 million.

On April 23, 2019, the Audit Committee declared a second quarter 2019 dividend to shareholders of \$0.80 per share. On an annualized basis, this equates to a dividend of \$3.20 per share. The second quarter dividend is payable on June 25, 2019 to shareholders of record at the close of business on June 10, 2019.

Investment Portfolio & Capital Position: During the first quarter of 2019, the Company recorded net realized gains on financial instruments totaling \$78 million and other-than-temporary impairment losses totaling \$10 million. During the first quarter of 2018, the Company recorded net realized losses of \$26 million and other-than-temporary impairment losses totaling \$8 million.

As of March 31, 2019, the Company's net unrealized gain position in the investment portfolio was \$255 million, consisting of fixed maturity securities. As of March 31, 2019 cash and investments at the parent company totaled approximately \$1.1 billion.

Commercial & Specialty Business: Operating gain in the Commercial & Specialty Business segment totaled \$1,587 million in the first quarter of 2019, an increase of \$178 million, or 12.6 percent, from \$1,409 million in the first quarter of 2018. The increase is a result of improved medical cost performance in Local Group and higher administrative fee revenue in our self-funded businesses, driven by greater penetration of value-added services.

Government Business: Operating gain in the Government Business segment was \$383 million in the first quarter of 2019, a decrease of \$98 million, or 20.4 percent, from \$481 million in the first quarter of 2018. The decrease is driven by the non-recurrence of retroactive revenue adjustments received in 2018 and continued elevated medical cost experience in Medicaid in select states, partially offset by certain reduced selling, general and administrative expenses.

Other: The Company reported an operating loss of \$30 million in the Other segment for the first quarter of 2019, compared with an operating loss of \$22 million in the prior year quarter.

Basis of Presentation

1. Operating revenue and operating gain are the key measures used by management to evaluate performance in each of its reporting segments, allocate resources, set incentive compensation targets and to forecast future operating performance. Operating gain is calculated as total operating revenue less benefit expense and selling, general and administrative expense. It does not include net investment income, net realized gains/losses on financial instruments, other-than-temporary impairment losses recognized in income, interest expense, amortization of other intangible assets, gains/losses on extinguishment of debt or income taxes, as these items are managed in a corporate shared service environment and are not the responsibility of operating segment management. Refer to page 13 for the GAAP reconciliation tables.
2. Operating margin is defined as operating gain divided by operating revenue.
